

S-BIO-COV

Cover For Sensor Bio Unit

The Sensor Biometric Cover helps protect the external Biometric reader. Inexpensive and highly durable, this hinged cover protects the biometric reader from the elements as well as knocks & bumps. Both the cover and hinge is moulded from polycarbonate material while the hinge springs are formed from stainless steel. The cover comes complete with installation screws and gasket.

Key Features

- Protects against vandalism and accidental damage.
- Fast and Easy Installation.
- Cover is moulded from thick smoke coloured polycarbonate material.
- Complete with mounting hardware and gasket.
