SensorProx SF
Readers

The SensorProx SF range of readers are practical and easy to install. All the readers are epoxy filled and weatherproof therefore suitable for indoor and outdoor applications. The SensorProx SF range uses smart card technology so cards can be used for multiple applications.

Key Features

- Mifare Compatable
- Metal back plate for easy installation
- Secure Encryted Format, cards & readers
- Non-drop bottom screw
- Backlit reader and keypad
- Touch sensitive number pad with LED feedback
- Smartcard technology
- Red, Green & Blue LED feedback

LED FEEDBACK
The Logo and keypad (SF-KPV only) is backlit blue for easy identification. The back light changes Green for access granted or Red for access denied. This makes the readers very user friendly.

HIGH SECURITY
Both readers & cards are encrypted offering the user a secure solution with no card duplication

MODERN DESIGN
New smooth sleek black design makes this reader ideal for installs where aesthetics are a priority.

SINGLE GANG
The SF-KPV and SF-SG are designed for US single gang mounting and also UK single gang mounting.

METAL BACKPLATE
Metal back plate allows the reader to be on metal surface without affecting the read range.

SMARTCARD
The SensorProx SF range utilizes read/write smart card technology. Cards can be also be used for other applications such as biometric authentication, cashless vending and PC log on security.

INTERACTIVE KEYPAD
Keypad is constant backlit blue. When key is pressed the key illuminates bright blue indicating confirmation of key press.

SensorProx SF
Readers

Technical Specification

LED Backlit	Blue, Red, Green
Weatherproof	Fully potted
Read Range	50mm
Case Material	PC & ABS

Physical

SF-MINI	85 (H) x 55 (W) x 17 (D) mm 80g
SF-SG	116 (H) x 85 (W) x 21 (D) mm 214g
SF-KPV	116 (H) x 85 (W) x 21 (D) mm 214g

Environmental

Operating Temperatures	-30°c to +70°c

Electrical

Operating Voltage	10 - 15 VDC
Operating Current	150mA (max)

Part Numbers

SF-MINI	SensorProx SF Format Mini Proximity Reader. Tri colour back lit reader.
SF-SG	SensorProx SF Format Single Gang Proximity Reader. Tri colour back lit reader.
SF-KPV	SensorProx SF Format Keypad Proximity Reader, Tri colour back lit keypad. Touch sensitive.

Options

SF-ISO	SensorProx SF Format ISO Cards. Smart Card Technology, 1K memory capacity

SF-KEY-Y/G	SensorProx SF Format Yellow/Grey Keyfob. Smart Card Technology. 1K memory capacity

SF-DSK-RD	SensorProx SF Format Desktop reader connected to PC via USB, use with GuardPoint Pro to easily add cards and fobs and also identify lost cards.
