

ML-0100

External Maglock

The ML-0100 electromagnetic lock from Sensor Access offers high performance locking in the most harsh environments. Manufactured in high quality stainless steel, fully sealed and with monitored as standard, offering a flexible locking solution.

Key Features

- Extremely reliable
- Fail safe
- Vandal & weather resistant
- 500kg holding force
- High grade stainless steel
- Face & side fix (surface)
- Monitored
- 5 year warranty

Technical Specification

Dimensions	230 x 61 x 40mm
Holding Force	500kg
Environmental	-25°C to +70°C
Voltage	12-24Vdc
Max current	630mA resting @ 12Vdc 315mA resting @ 24Vdc
Monitoring	NO/NC relay

Part Numbers

ML-0100	12/24Vdc External Maglock
